Stich, Daniel

Publicaciones

- **The relative location of multiplets in the vicinity of the Western Almería (southern Spain) earthquake series of 1993-1994.** Stich, D.; Alguacil, G. and Morales, J.; 2001, Geophys. J. Int., 146, 801-812.
- **Moment tensor solutions for small and moderate earthquakes in the Ibero-Maghreb region.** Stich, D.; Ammon, C.J. and Morales, J.; 2003, J. Geophys.

Res. 108, 2148, doi10.1029/2002JB002057.

- **Source Parameters of the 1910 Mw=6.1 Adra earthquake (southern Spain).** Stich, D.; Batlló, J.; Morales, J.; Macià, R. and Dineva, S.; 2003. Source, Geophys. J. Int. 155, 539-546.
- **New results from amplitude preserving prestack depth migration of the Münchberg/ Vogtland segment of the MVE deep seismic survey.** Bleibinhaus, F.; D. Stich; M. Simon & H. Gebrande (2003). J. Geodynamics 35, 33-43.
- **Moment tensor determination for the ibero-maghrebian region.** Stich, D.; J. Morales; F. Mancilla & G. Alguacil (2003). Orfeus Electronic Newsletter 5, 2, 2.
