

Moment Tensor Catalogue 1

The IAG Regional Moment Tensor Project

On this site we post moment tensor estimates from time domain inversion of complete regional waveforms. Reference: stich@ugr.es, Ammon, C.J. and jmorales@ugr.es. Moment tensor solutions for small and moderate earthquakes in the Ibero-Maghreb region, (2003), J. Geophys. Res. 108, 2002JB002057.
